## THE WORLD WILDLIFE FUND'S POLAR BEAR LIES

By Tom DeWeese  
March 10, 2009  
NewsWithViews.com

No doubt you've seen the ads. The music is dramatic. The scene is tragic. The message emotional. Polar Bears, holding on for dear life to bits of ice, their arctic habitat destroyed by Global Warming. And the narration tells you of the tragic fate of the bears, all because of man and his selfish destruction of the earth. And of course, the ad ends with a plea for funds to help the World Wildlife Fund (WWF) protect the bears and stop Global Warming. Cute, fuzzy animals always do the trick.

Trouble is, it's all a lie. Not one word of the ad is true. Polar Bears are not endangered. There is no indication of any reduction of their populations. In fact, they are actually being hunted by locals who have to live with them, in an effort to keep their populations down. Of 13 Polar Bear populations, 11 are thriving and growing.

The real agenda behind WWF's Polar Bear campaign is to stop drilling of American oil and to shackle the United States with the UN's Kyoto Climate Change Treaty. Again, the policy is called Sustainable Development.

Advertisement

Using the Polar Bear, which WWF and the Sierra Club managed to get listed on the Endangered Species (ESA) list last year, the greens can grab control of the U S economy, controlling energy production.

The World Wildlife Fund is dangerous to our way of life – to our very civilization. We should no longer just treat them like some nice folks with a different point of view. Political debate is one thing, outright fraud is criminal.

Last year, in a Congressional hearing on the listing of the Polar Bears, Congressman Don Young of Alaska said testimony by Bush Administration officials “clearly indicated the overriding goal was to use the ESA as a tool to stop energy production in any and all states.” Under questioning, former U.S. Fish and Wildlife Director Dale Hall confirmed that if a coal-fired power plant in Arizona were seeking a federal permit, with the Polar Bear listed as protected by the ESA, the Fish and Wildlife Service would have to consult on the permit. In other words, a power plant located thousands of miles away from Polar Bear habitat would be considered a danger – because of global warming. How could any industry be possible? And that’s just the way WWF wants it.

The truth is now rapidly coming out. There is no man-made global warming – it’s a lie. There is no threat to Polar Bears - -it’s a lie. Drilling American oil is not a danger to the environment – it’s a lie. And yet, WWF continues to spread the lies and fan the fear.

It is time we fight back against these zealots who put anything else on earth ahead of man. Taking donations based on lies is fraud and WWF should be called on it. We should call on the federal government to take away WWF’s non-profit status. We should complain to any television network that runs their lies. We should demand that such false advertising be pulled from the airways.
