LESLIE ROAD - WILD ANIMAL

Inspection

Type: ROUTINE INSPECTION

Date: JAN-02-2008

3.125 (a)

FACILITIES, GENERAL.

The facility shall be maintained in good repair to protect the animals from injury.

Leo - Lion enclosure : A small area of the cattle panel fencing at the bottom of the feeder has pulled away and the sharp edge of the fence is sticking into the enclosure. This is an area which may cause injury to the animal if he becomes snagged on it . The fencing needs to be repaired to prevent injury .

Correct By : 2-2-08

Inspection was conducted with animal care staff member and Dr. Pannill-USDA
