Type: ROUTINE INSPECTION

Date: May-19-2010

ACTON, CA 93510

**3.127** (d)

### FACILITIES, OUTDOOR.

\*\*\* (d) Perimeter fence - all outdoor housing facilities must be enclosed by a perimeter fence that is of sufficient height to keep animals and unauthorized persons out. Fences less than 8 feet high for potentially dangerous animals, such as, but not limited to, large felines (e.g., lions, tigers, leopards, cougars, etc.), bears, wolves, rhinoceros, and elephants, or less than 6 feet high for other animals must be approved in writing by the Administrator. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility. \*\*\*

Rear gate in perimeter fence is substantially lower than the surrounding perimeter fence, and has a gap of several inches present where gates meet. The gap is large enough to allow the entrance of small animals. The perimeter fence function as a secondary containment could be impacted by the lower height of the gate. A system of maintenance must be in place.

TO BE CORRECTED BY: 6-27-10

Exit interview conducted with facility personnel during inspection.
